

## Long-Term Care Insurance...By the Numbers

- 1 in 3**     *The number of workers who will be faced with providing some form of long-term care for their boomer parents.*
- 43%**     *The amount of overall LTC costs paid by Medicaid.*
- 50%**     *The percentage of couples who spend their entire savings within one year of entering a nursing home.*
- 75%**     *The percentage of single people who spend their entire savings within a year of entering a nursing home.*
- 307%**     *How much the 85 and older segment is expected to grow in the next 45 years. The general population is expected to grow by only 42%.*
- \$83,000**     *The average cost to stay in a U.S. nursing home for one year.*
- \$80 Million**     *The number of Americans who will turn 50 over the next 18 years. That is one person every eight seconds.*
- \$25 Million**     *The annual cost of lost productivity to companies from LTC responsibilities for their employees (about \$4,000 per employee).*
